## Our Values

### We offer innovative services

We bring to economic operators and goods producers, international forwarding and logistic services aimed at the quality improvement in the process of market globalization together with the complete security of processes and services .

### People are our asset

We assure our people a prospect of stability and security, investing in their development and professional growth, enhancing their technical skills, their ability to solve problems and to understand Clients' needs, their autonomy, in line with the Company's values.

### Partnership with the customer

Relations with our customers are based on trust and coincidence of common objectives, aware that the success of our Customers will favor ours.

### Promoting Quality

We contribute to the development of the level of the market, by promoting an awareness that the adoption of measures to protect safety and the environment and, in general, attention to quality are attitudes which result in advantages and increase the competitive edge and the value of those companies which pursue them.

## An Italian success story

### We team up with our Customers

Our services are aimed at partnering with Customers who share our same targets in terms of safety and quality work, to the purpose of bringing common objectives to an ever growing level.

| Business Units           | Main Sectors            | Special Units  |

| Airfreight Services      | Chemical & Pharma       | Supply chain   |
| Project Cargo            | Fashion                 | Insurance      |
| Surface Freight          | Energy                  | Cross trading  |
| Logistics & Distribution | Food & consumer         | Contract       |

ALLTRANS is a private Group, founded in Milan, Italy in 1976, leader in logistics and international forwarding sectors. Our business is focused on air, sea, road transportation and logistics worldwide. Endowed with a unique capacity of blending together a dynamic network with customer friendly desk assistance. We deliver flexible solutions of dedicated logistics to worldwide customers, encompassing forwarding, warehousing, customs and distribution services

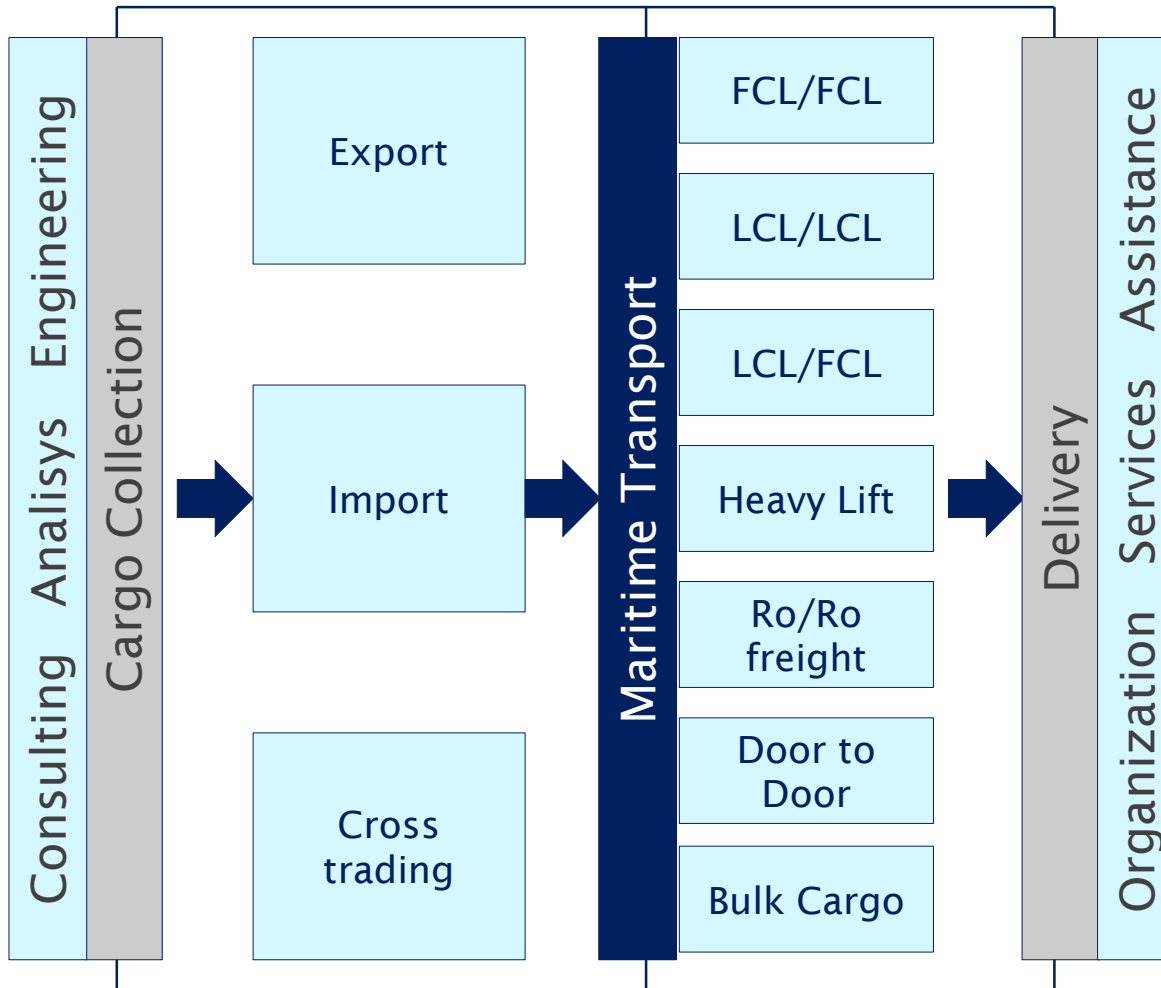

## Global Coverage

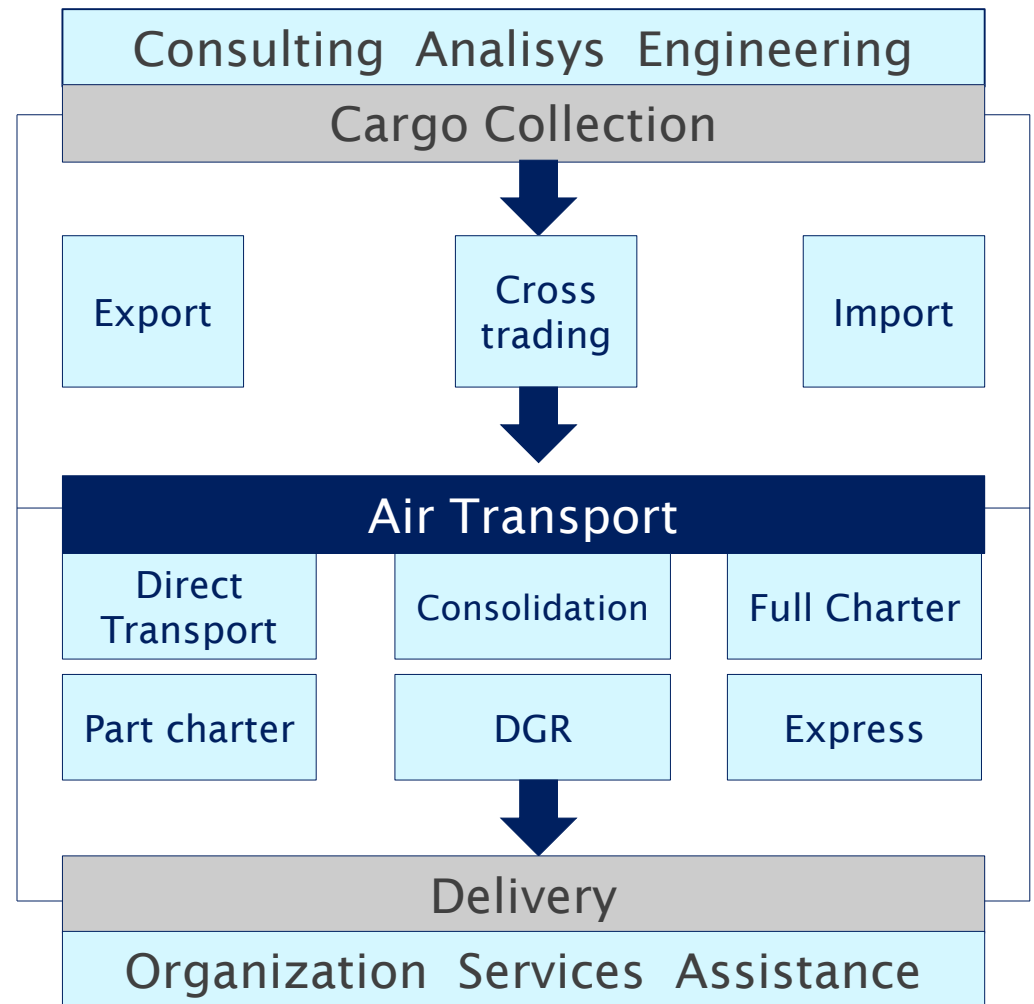

● ALLTRANS Offices

● Network Offices

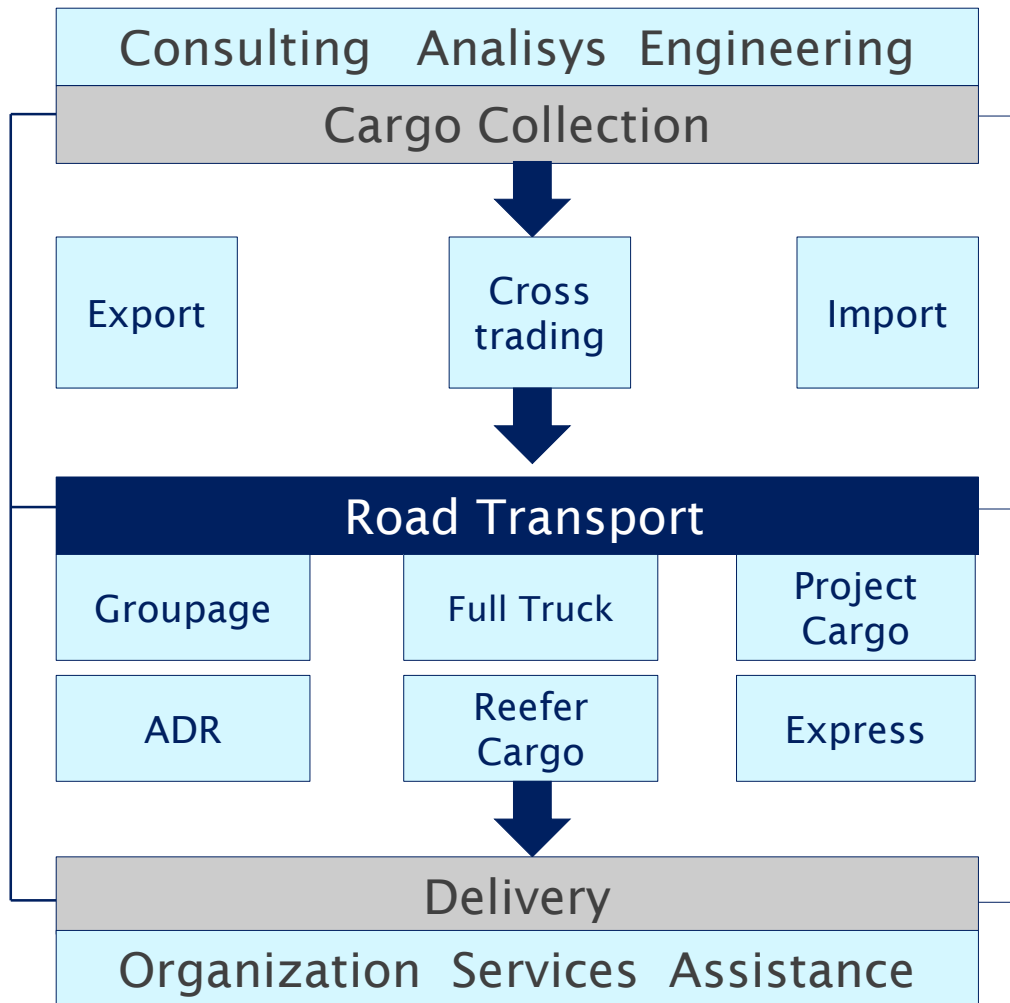

## Maritime Services

## Airfreight Services

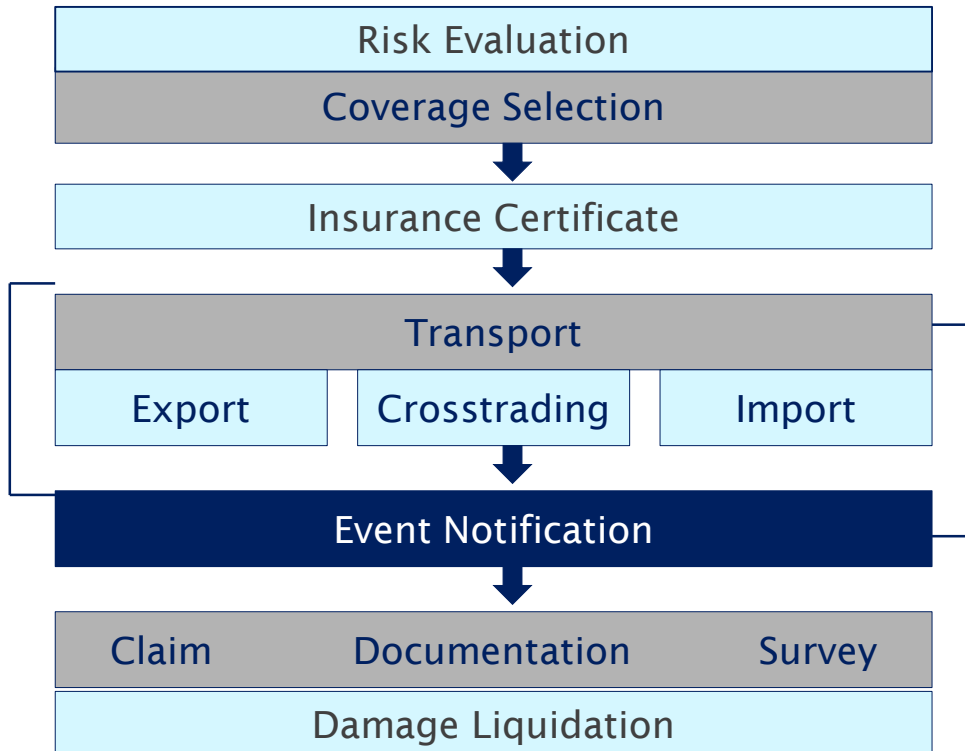

## Road Services

## Insurance services

### Damages ? Theft ? Average ? A competent partner at your side

As regretful as these happenings may be, they do happen as we all know and having a capable partner at your side makes things a lot easier. A consistent insurance coverage protecting your interests at an affordable cost and a professional post event recovery practice is what our Group offers you.

## Special Transport

### Project cargo

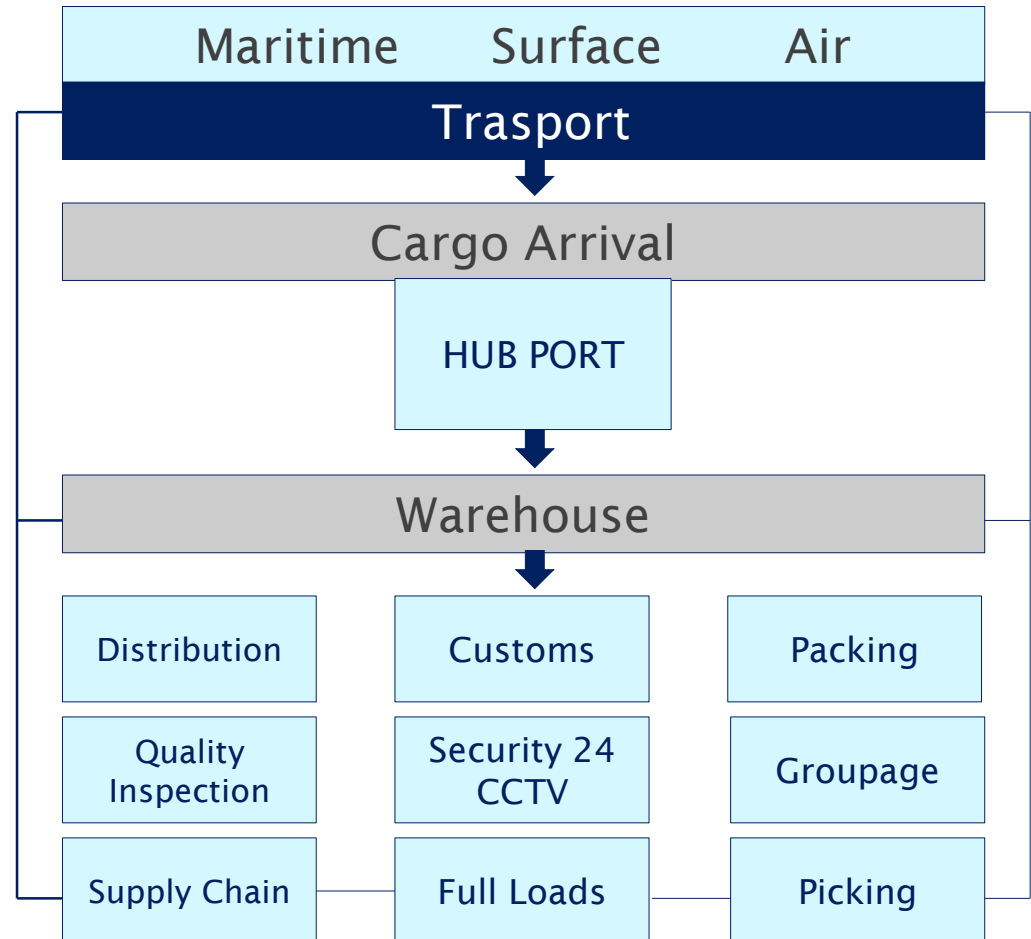

Our Project division accompanies you in the realization of oversized and heavy-lift transport anywhere in the world, studying the feasibility of the whole process in detail, ensuring full optimization at every stage of the project.

### Multimodal and Rail Freight

ALLTRANS provides intermodal rail services through institutional operators in order to prepare customized solutions door to door, integrated with accessories handling services, warehousing, customs and distribution

## Logistics
